# YOU DESERVE TO RECEIVE THE YARDAGE YOU'RE PAYING FOR

The saying goes "always choose quality over quantity", but with Circle B there's no choice, **YOU GET BOTH!**

Circle B has successfully marketed a wide variety of landscape mulch for over 38 years. Capitalizing on nearly four decades of **experience**, the Circle B team has developed a method that accurately calculates the yardage for each product we sell.

In order to accomplish this, we have fabricated a container designed to hold exactly 3 cubic yards of mulch. We then weigh each type of mulch in this container on our certified scale to establish accurate yardage weights. We repeat this yardage/weight yield test regularly to recognize variations in moisture and density.

Using the weights we have gathered during this process, we can then calculate the accurate yardage of each load.

Is your current mulch supplier as precise about their yardage? If they are not, that 90 yard load billed at \$16.50 a yard may only be 75 yards worth, costing you \$20 a yard in actuality.

This is just one of the many examples of how Circle B's **experience** and integrity make all the difference.

## SERVICE

At Circle B we understand your business' needs. Not only are you looking for the best value, you're looking for high quality mulch, product availability, friendly service, quick and seamless delivery, and easy ordering.

We do not believe these are luxuries, we believe they are essentials. This is why all of these components are part of our service commitment.

You should not have to compromise quality and great service for a good price per cubic yard. With Circle B, you get excellent service, a large variety of high quality products, highly competitive pricing, and accurate billing on your yardage volume.

## QUALITY

*What it means for your bottom line*

We know that our product quality directly effects your customer's satisfaction as well as your own. Circle B's Double Shredded Oak Bark is expertly processed by our team and composed primarily of high quality oak hardwood. Many companies call their mulch "Double Shredded Oak" but lower the quality by using ash tree grindings and other recycled wood waste as the main component.

Circle B's Double Shredded Oak

We don't believe in cutting corners when it comes to quality because we know great looking mulch is what keeps our customers, and yours, coming back. Request samples of any of our mulches and see the Circle B difference for yourself!
